Max2k IP Crack Free Download [Latest-2022]

☒ A small C# application, completely free and open source (MIT License). ☒ Size: 661Kb (zip archive). ☒ Supports windows x32/x64. ☒ Shows your default IP and last accessed IP in the right upper corner of the screen. ☒ Four timers adjust the update interval: one for local connection time, one for proxy time, one for calculating time (exact) and one for calculating time (estimated). ☒ All timers are configurable in the control panel (right click) ☒ Max2k IP is designed to be small and as lightweight as possible. ☒ All font characters are included in the zip archive. ☒ The code is written in Visual Studio 2008,.NET Framework 3.5 ☒ It can be used with any Microsoft Windows version, but an OS with .NET Framework 3.5 is recommended. ☒ You can download the zip archive to see the interface and the instructions for installing the software. Benefits: ☒ You will always have your IP in the upper right corner of the screen. ☒ If you make a mistake, you won't lose your IP. ☒ If you make a last connection using different IP, your IP is automatically changed. ☒ The application only tries to update the IP when a new IP is detected. ☒ When Max2k IP is closed, all the IPs collected will be removed from the hard disk. ☒ It is easy to start and close the application. ☒ It shows current and last used IP. ☒ It calculates the last connection time and the proxy IP. ☒ It calculates the exact IP and the approximate IP. ☒ It has an option to update only the IPs you want. ☒ It has a user friendly interface and can be configured from the right click menu. ☒ When you close the application, you can't save your IP. Installation: ☒ Unzip to a temporary directory. ☒ You will see a window named Max2k IP.exe. Rename it and create an empty shortcut, in system tray. ☒ Optional: ☒ Unzip the zip archive to the default directory to all windows users. ☒ Rename the zip archive
